

Making course priorities on Studentweb

Choosing a course for Experts in Teamwork

You will receive a notification on the front page in Studentweb if you are going to make a course priority in this period. Tap the link and you will enter your education plan where the course priority will be made. You can also go there by choosing «Studies» on the top menu and «Show education plan».

The screenshot shows the Studentweb interface. At the top, there is a navigation bar with 'Studies', 'My active courses', 'Results', and 'More...'. The language is set to 'English'. Below the navigation bar is the Studentweb logo and the text 'NTNU Norwegian University of Science and Technology'.

The main content area is divided into two sections:

- Upcoming events (1)**: A table with columns 'Date', 'Course', and 'Information'. The table contains one row for the date '29.11.2021', course 'GEOG3518 Global Production Networks', and information about an assignment available on 29.11.2021 09:00, with a submission deadline of 29.11.2021 13:00. It also mentions an 'Inspira assessment' and a digital exam.
- Notices (3)**: A list of three notices. The first notice is highlighted with a red oval and contains the text: 'IMPORTANT Deadline for prioritize topics is 01.11.2021 in "Experts in Teamwork - Intensive". If you wish to do something about it, go to the page Education plan.' The second notice is 'INFO Your registration is complete Autumn 2021' and the third is 'INFO The semester fee has been paid Autumn 2021'.

Choose EiT-courses

- Approve the course priority and semester and click «Finalize»
- Some time after the deadline, your priorities will be processed, and you will be accommodated according to the regulation for admission. The course you are admitted to will appear in the education plan in the same way as the other ordinary courses. You will be registered for both class and exam in this course. The other priorities you are not admitted to, will be removed from your education plan.
