Tema: Forskning Formidling

Every Wednesday, the Department of Biotechnology and Food Science arranges a lunch seminar that is actually a mixture of three different series: *PhD* is for our PhD candidates presenting their plans at startup, or their work as it ended close to dissertation. *Pro* is for professors and professionals presenting their own work or some topic within their own field of expertise. Since top class biotechnology is performed at a multitude of Departments at NTNU, people from outside is often invited. Moreover, there are exciting studies going on at NTNU far off our own field of science that should also be of major interest. Finally, series *Asp* = "annet spennende" may include anything else of exciting studies or hobbies with a touch of science or culture. So watch out!

**Time:** Every Wednesday 12:15 - 13:00.

**Location:** From 18. November the seminar will be held fully digital, link will be posted on Innsida. (Lunch room 069 - Kjemiblokk III/IV)

**Language** is indicated by the language of the title

## IBT lunch seminars autumn 2020

Dato	Uke	Serie	Navn og tittel
9/9	37	Pro	André Voigt: <i>Covid-19 modelling at NTNU</i>
16/9	38	Pro	Øystein Ekroll, Nidaros Cathedral Restoration Workshop: <i>Will it ever be completed? Rebuilding Nidaros Cathedral for 150 years – and then some more</i>
23/9	39	PhD	Eva Madland: <i>Interactions between carbohydrate-binding modules and carbohydrates – An NMR study</i>
30/9	40	PhD	Jakob Peder Pettersen <i>Adaption of wine strains for reducing alcohol content, a modeling approach</i>
7/10	41	Asp	Kjetill Østgaard: <i>Jomsvikingane 2.0</i>
14/10	42	Pro	Marcin A. Kurek: <i>How to stabilize bioactive substances during food processing?</i>
21/10	43	PhD	Madeleine Gundersen: <i>Why do bacterial communities change over time?</i>
28/10	44	Pro	Ronny Kjeldsberg, Dep. Physics / NTL NTNU: <i>Open science: From publish-or-perish to predatory journals – can plan S save the future?</i>

Dato	Uke	Serie	Navn og tittel
4/11	45	PhD	Hendrik Langeloh: <i>Field based oil depletion processes in temperate and Arctic seawater</i>
11/11	46	PhD	Line Skontorp Meidell: <i>Increasing the utilization of whitefish rest raw materials from the Norwegian seagoing fleet into valuable ingredients</i>
18/11	47	Pro	Daniel Machado: <i>Polarization of microbial communities between competitive and cooperative metabolism</i>
25/11	48	PhD	May Laura Kilano Khider: <i>Synthetic methanotrophy</i>
2/12	49	Pro	<del>CANCELLED; Karen Dunker: <i>Glycan-based interactions in biological surfaces</i></del>
9/12	50	PhD	Dat Trong Vu: <i>Increasing the knowledge on low trophic marine resources for sustainable food security</i>
16/12	51	Asp	<del>CANCELLED; Tutti: <i>X-mas games</i></del>
