

Innsida / Wiki / Department seminars - IBT

Department seminars - IBT

Intended for: Employees Topic: Research Research dissemination

Spring 2018

- **Time:** Every Wednesday, 12.15-13.00.
- **Place/Room:** lunch room .
- **Updated:** 06.04.2018

Please note that language of the **title** indicates the **language of presentation**

Schedule

Dato	Uke	Se- rie	Navn og tittel:
10/1	2	Pro	Dan Zielinski, Syst. Boil. Res. Group UCSD: <i>Frontiers in genome-scale metabolic modeling</i>
17/1	3	Pro	Roger Strand, SVT UiB: <i>What is Life? And who cares?</i>
24/1	4	Asp	Janna Crobotova: <i>The power of speaking: Some tips to become a great communicator</i>
31/1	5	PhD	Saara-Maria Kauppi, Dept. Design NTNU: <i>Edible insect products: design and marketing</i>
7/2	6	PhD	Emil Karlsen: <i>Modeling bacteria for production of sustainable bioconcrete</i>
14/2	7	Pro	Richard Kumaran Kandasamy, SFF-CEMIR Dept. Clin. Mol. Med. NTNU: <i>High-throughput integrative approaches to study antiviral signaling and inflammation</i>
21/2	8	PhD	Martina Hall: <i>Detecting relationships between genome and disease states in the HUNT sample population using computational network modeling</i>
28/2	9	Pro	Janna Crobotova: <i>Quality characteristics of sous-vide cooked Atlantic mackerel during chilled storage</i>
7/3	10	Pro	Ane Kjersti Vie, Dept. Biol., NTNU: <i>Plant defence (or why plants are awesome!)</i>
14/3	11	Pro	Tore Brembu: <i>How do you build a glass house? Using transcriptomics and gene editing to elucidate silica nanopatterning in diatom cell walls</i>
21/3	12	Pro	Veerle Jaspers, Dept. Biol., NTNU: <i>Exposure and effects of pollution in birds of prey - results from the New Raptor Project CANCELLED</i>
28/3	13		Easter
4/4	14	PhD	Lilja Brekke Thorfinnsdottir: <i>Inhibition of antibiotic resistance development through targeting bacterial translesion synthesis mechanism with novel peptide drugs</i>
11/4	15	Pro	Menno Oudhoff, CEMIR Dept. Clin. Mol. Med. NTNU: <i>Using the intestine as a model system to study homeostasis and disease</i>

Dato	Uke	Se- rie	Navn og tittel:
18/4	16	AsP	Berit Strand et al.: <i>Bioteknologiske løsninger og implikasjoner - posterpre-sentasjoner i TBT4170 Bioteknologi</i>
25/4	17	PhD	Che Fai Alex Wong : <i>Development of molecular toolbox for MetaFluidic</i>
2/5	18	Pro	Ralph Kissen, Dept. Biol. NTNU: <i>Glucosinolates - secondary metabolites and plant innate immunity</i>
9/5	19	PhD	Ola Aarøen: <i>A multidisciplinary approach to characterize coalescence in petroemulsions</i>
16/5	20	PhD	Christian Schulz: <i>From Zero to Hero: The story of modelling Pseu-domonas for nylon production</i>
23/5	21	PhD	Lisa Tietze: <i>Superap - a new enabling technique for gene expression</i>
30/5	22	PhD	Ragnhild Olsen Fossmark, Dep. Civil. & Environ. Engng. NTNU: <i>Water quality and treatment in land based recirculation aquaculture systems (RAS) for salmon production.</i>
6/6	23	-----	<i>CANCELLED due to Dep. Strategy Seminar</i>
13/6	24	Pro	Ingrid A. Henry, SINTEF Ocean AS: <i>Exploring microbial community suc-cession in marine oil-related aggregates</i>
20/6	25	Pro	Anders Johnsson, Dept. Physics NTNU: <i>Biological clocks - an introduction to Nobel Prize in physiology or medicine in 2017.</i>
Re- server		AsP	Che Fai Alex Wong: <i>History of wartime research: the stories from Max. Pe-ritz & Ernst chain</i>

Abbreviations

Pro "Hva gjør vi? Hva har vi lyst til å gjøre?" Vi i betydn. kongelig entall eller "gruppa". Lyst til i betydn. kommende 3- årsperiode. Bidrag fra proffer, proffe forskere / post doc. og vitensk. ansatte.

PhD "Graden min, den blir så fin!" - Bidrag fra PhD-studenter i alle faser av studiet.

MoU "Jeg forteller gjerne - om min diplom med !" - Bidrag fra Masters of the Univers(ity); nyansatte og hovedfags-studenter.

Asp = *Annet spennende!* I betydn. med snev av fag, kultur, eller begge deler. / Bidrag fra gjester og andre. Hvem som vil, egentlig.
