Department seminars - IBT

Målgruppe: Medarbeidere Tema: Forskning Formidling

Spring 2020

- **Time:** Every Wednesday, 12.15-13.00.
- **Place/Room:** lunch room .
- **Updated:** 18.04.2020

Please note that language of the **title** indicates the **language of presentation**

DUE TO THE CORONA SITUATION, THE SEMINARS HAVE BEEN CANCELLED FOR THIS SEMESTER

Schedule

Dato	Uke	Serie	Navn og tittel:
8/1	2	Pro	Siv Gøril Brandtzæg, Inst. f. språk og litteratur NTNU: <i>Da folket sang om sørgelige nyheter: Skillingsvisene i Norge</i>
15/1	3	Pro	Ida-Johanne Jensen: <i>Is your seafood lunch healthy?</i>
22/1	4	Pro	Gudmund Skjåk-Bræk: <i>Modification of alginate in supercritical CO₂; My «Cold Fusion Process»</i>
29/1	5	Pro	Clifford Kentros, Kavli Institute for Systems Neuroscience NTNU: <i>Investigating the neural circuitry of memory via enhancer-driven gene expression (EDGE)</i>
5/2	6	Pro	Marit Otterlei, Dep. Clinical and Molecular Medicine NTNU: <i>Development of novel antibacterial peptides in the fight against AMR</i>
12/2	7	Pro	Makoto Takemasa, Tokyo Denki University - Dep. Life Sci. & Engng.: <i>Design and analysis of food texture: Food 3D printing / analysis based on deep learning</i>
19/2	8	PhD	Garima Jain: <i>Nanomorphology effects on the bioactivity and chemical activity of metal oxides, sulphides, and silicates</i>
26/2	9	PhD	Idd Andrea Christensen: <i>Structural and functional characterization of oxidative carbohydrate-active enzymes by NMR spectroscopy</i>
4/3	10	Asp	Henrik Stamnes Dahl: <i>Hann skal eigi laga nióta: Bannlysning som historisk straff og juridisk paradoks</i>
11/3	11	Pro	Aslak Einbu SINTEF Process Technology: <i>From laboratory to industrial scale – latest news from Carbon Capture and Storage</i>
18/3	12		<i>Cancelled due to collision with other arrangements</i>
25/3	13	Pro	Marta K. Irla: <i>Metabolic engineering of Bacillus methanolicus for production of acetoin</i>

Dato	Uke	Serie	Navn og tittel:
1/4	14	PhD	Vetle Simensen: <i>Incorporating metabolomics data with genome-scale metabolic reconstructions</i>
8/4	15		<i>Easter</i>
15/4	16	PhD	Agnieszka Gawin: <i>Study and engineering of Gram-negative bacteria as hosts for production of recombinant proteins and biopolymers</i>
22/4	17	Pro	Øystein Ekroll, Nidaros Cathedral Restoration Workshop: <i>Will it ever be completed? Rebuilding Nidaros Cathedral for 150 years – and then some more</i>
29/4	18	Pro	Ronny Kjeldsberg, Dep. Physics / NTL NTNU: <i>Open Science: From publish-or-perish to predatory journals – can Plan S save the future?</i>
6/5	19	PhD	Madeleine Gundersen: <i>Microbial invasions in microbial communities</i>
13/5	20		
20/5	21	Pro	Marcin A. Kurek: <i>How to stabilize bioactive substances during food processing?</i>
27/5	22		
3/6	23		
10/6	24	Pro	Kanhaiya Kumar: <i>Physiology of Streptomyces coelicolor during antibiotic production</i>
Reserver	1	Pro	Marit Sletmoen: <i>Optical tweezers and the Nobel prize of physics 2018 –</i>
	2	Asp	Kjetill Østgaard: <i>In Borderland V – The last of the mohikans</i>
	3	Asp	Kjetill Østgaard: <i>Jomsvikingane 2.0</i>

Abbreviations

Pro "Hva gjør vi? Hva har vi lyst til å gjøre?" Vi i betydn. kongelig entall eller "gruppa". Lyst til i betydn. kommende 3-årsperiode. Bidrag fra proffer, proffe forskere / post doc. og vitensk. ansatte.

PhD "Graden min, den blir så fin!" - Bidrag fra PhD-studenter i alle faser av studiet.

MoU "Jeg forteller gjerne - om min diplom med!" - Bidrag fra Masters of the Univers(ity); nyansatte og hovedfags-studenter.

Asp = *Annet spennende!* I betydn. med snev av fag, kultur, eller begge deler. / Bidrag fra gjester og andre. Hvem som vil, egentlig.
