- Mindmapping
- Peer review
- Team based learning(TBL)
- Collaborative response

Tools

- Mentimeter
- Miro
- Blackboard
- Eduflow
- Taskcards

Plenary

activities are characterised by sharing information in a one-to-many setting

Activities

- Brainstorming
- Crowdsourcing
- Debate
- Flipped Classroom
- Q & A
- Lecture
- Presentations
- Quizz

Tools

- Panopto
- TaskCards
- Miro
- Blackboard
- Mentimeter
- Kahoot

“I want to activate students with interactive videos, create simple drag-and-drop tasks and create tests.”

- Testresults is visible in grade center
- Over 40 content types

..did you know that you can build h5p-elements directly in your Blacbourd course.

“I want to create an assignment in Blackboard with group submission, and where the groups do a group peer review.”

- Easy to set up
- Great peer-review administration
- Eduflow is integrated in Blackboard, but must be ordered in NTNU Help

“I want to activate all students in teaching with simple warm-up exercises, questions, polls or brainstorming.”

- easy to set up and share
- many different content-/slidetypes
- Suitable for both digital and physical teaching

…did you know that you can share a Menti directly in a zoom-session?

“I need a video library where my learning resources can be shared from, and which is integrated with Zoom and Blackboard ”

Panopto™

- Own Panopto-folder in your Bb-course
- Cloud-recording in Zoom uploads automaticly in the Bb-course folder

…did you know that students can submit a video to Panopto in an assignment with grades in the gradescenter?

“I want the students to post questions digitally during the lecture. Students can also contribute with answering the questions.”

- Replaces Padlet
- Easy to set up and structure
- Easy to comment, and vote
- Anonymous contribution angages more students

“I want a digital workspace in group work for the students.”

- Easy to set up
- Fits both digital and physical settings
- Flexible input – text, drawings, picture etc.
- Anonymous contribution angages more students

1. Questions and reflection

2. Plan a learning activity supported by a digital tool.

- To consider
  - Learning context
  - Physical – digital
  - Synchronous – asynchronous
